

Balancing body pH may be the single most important step in achieving optional wellness. Our **pH MINERAL** beverage will help you reach that goal.

The **Standard American Diet** (SAD), including acidifying coffee, sodas, meat, unhealthy carbohydrates and artificial sweeteners, has left almost all of us dangerously below the neutral pH of 7. This makes us susceptible to depleted energy, poor immune function, joint and muscle pain, cardiovascular disease, bone loss, weight problems, premature aging and more. Alkalize and start enjoying the benefits of **pH MINERAL** today.
